Puri that Banner! furl it sadly:
Once ten thousands halled it gladly.
And ten thousands wildly, madly,
owner it should forever wave—
Swore that foeman's sword could never
Rearts like thems entwined dissector.
Till that flag would fost forever
G or their freedom or their graves. Furt it! for the hands that grasped it,

And the hearts that foully elasped it Cold and dead are laying now. And that Banner, it is trailing. White around it sounds the wailing Of its people in their wae; For though conquered, they adore it; Low the cold dead hands that hore it; Weep for those that fell before it. Parties those who trailed and tore it; And oh! wildly they deplore it. Now to fart and fold it so.

Furl that Banner! true 'tis gory, Net 'twas wreathed around with glory, Net Twis wreamer around in grovy.
And Twill live in song and story.
Though its folds are in the dust;
For its finne, on brightest pages.
Fenned by poets and by sages.
Shall go somaling down through ages—
Furl its folds though now we must. For it droops there, farled for year.

Treat it gently—it is hely—
For it droops above the dead:
Tonen it not—nateld it never.
For it droops there, farled forever.
For its people's hopes are dead.

The receipt of the mail papers, from the present prices. Tennessee since the adoption, or pretended adoption, of the Constitutional amendment, by the Legislature of that State, show how that villiany was not carried. With all old BaowsLow's the Zmesville Courier, recently received a permanent. These veins of gold-bearing It 54 of the members could be gotten Peabody. The Mineral Wealth of Colorado. This young Territory has, during the ast six months, recovered rapidly from I the depression occasioned by the vicissitudes of the war, Indian Lostilities, the destruction of her harvests, and avarice of unprincipled mining speculators. The tide of emigration is once more setting in a steady and uninterrupted stream toward Denver and Golden Gate, that opens into the El Dorado inventive genius of our scientific men Why is the assessor of taxes the best man sulphur contained in her ores could be mining tables take surer hold of the gold that was there chemically bound. plodes after entering the body of a man, and Those efforts have at last been crown ed with remakable sucess, and the mills of Kelth, Lyons, and Dodge now ge out from 70 to 75 per cent. of the gold, where the old stamp mill process could not secure more than 15 or 20. As to A negro fell from a third story window the existence of large amounts of gold in Trey, striking his head upon the pave-ment, very much injuring the bricks.

In the Colorado ores, the reports of Professors Silliman and Meylert, both An elephant in an English circus tossed of whom have spent some time in the ample and assured testimony. In Col-A Johnson Club of one hundred members orado the gold is found in veins of iron, was organized at Monticello, Lewis county, copper, silver, and lead, lying in the rock, and inclosed within its walls. In California the gold-bearing regions are ometimes large, sometimes small, are occasionally found. The yield of gold this territory is contained in mineral Two women made their escape from the veins, and is almost uniformly diffused

THE CHAMPION

Washing Machine. THIS is one of the best Labor-Saving Machines new in use, both for Cheapness, Durability and Simplicity. It saves Labor, saves Soap, saves Fuel. Simplicity. It saves Labor, saves Soap, saves Fuel.

This machine is so arranged that it keeps all the hot steam and smell of the suds from rising up in the face, and makes no slop on the floor. It is the lightest and most convenient machine to handle manufactured, and at the same time is less liable to get out of order or break.

Every lady would do well to try the Champion before purchasing any other, as we know it to be without a competitor in all the requisites of a practicable, reliable Washing Machine.

No Washing Machine ever invented or introduced in the State of Missouri, has met with such universal success and favor.

What is more encouraging to the proprietor is, that the demand is greatest where it is best known, and it stands to-day where it has ever stood, without a rival, both in the States of Missouri and Illinois.
